Capabilities: The Bitburg Veterinary Treatment Facility offers full service veterinary care. General small animal practice includes outpatient clinic, annual exams and immunizations. We perform a wide variety of surgeries ranging from routine spays and neuters to orthopedic procedures (including knee and hip surgery). Routine dentistry and X-rays are performed at our facility.

Limitations: Due to our level of staffing and other military obligations, the Bitburg VTF is unable to provide 24-hour emergency care. Animals requiring this level of care will be referred to local national veterinarians providing these services. Emergencies will be seen during normal hours of operation.

Access: Patients are seen by appointment. We will see walk-ins as time permits. It is highly advisable to schedule your appointment a couple days in advance, since our schedules tend to fill rapidly. We will see emergencies on a walk-in basis; however, it is always advisable to call ahead to make sure that a veterinarian is at the facility.

Referrals: We actively send patients to specialists in the area, as well as to the 51st VTF in Kaiserslautern. We recommend making an appointment to be seen by us, and if we cannot solve your problem, we will send you to the appropriate specialist, who can help you.

Emergency Care: Emergencies are seen at our VTF during our normal hours of operation. Any emergency will take precedence over a regularly scheduled appointment. Please call ahead of time before driving to our VTF, to make sure a veterinarian is available in the clinic.
